THE CLEARFIELD PROGRESS SATURDAY EVENING MAY 31, 1919

YANKS COMPLETE TRANS-OCEAN FLIGHT
HUNS AVER THEY CANNOT FULFILL TERMSCOMMANDER REED GLIDES INTO
PLYMOUTH, ENGLAND, AMID CHEERS

By EDWIN HULLINGER

PLYMOUTH, ENG., May 31—Completing its great flight over the Atlantic, the American seaplane NC 4, swept into the harbor at Plymouth at 2:26 p. m. today. The huge ship of the seas under the direction of Lieut. Commander A. C. Reed, her skipper on the whole historic air voyage left Ferrol, Spain, on the last lap of the trip shortly after 6 o'clock this morning. She spent the night at Ferrol after having been forced by engine trouble to descend in a river 100 miles north of Lisbon from which point she started for Plymouth early Friday. An eager crowd greeted the triumphant Yankee sea plane here. Crowds rushed to vantage points when the word came that she had been sighted. It was given a royal welcome.

WASHINGTON, May 31—American flyers completed the journey from New York to England in an aeroplane. Admiral Knapp at London cabled the Navy department in a message which reached here at 9:52 Washington time saying "NC 4 arrived Plymouth." The great feat accomplished when the NC 4 arrived at Plymouth this morning marks the climax of a modern system experiment to defeat the obstacles of trans-Atlantic flying. Nearly 4,000 miles were covered by the Navy plane. The actual flying speed averaged between 70 and 80 miles.

Here are the men who left Rockaway Beach May 8 and who will go down in history as pioneers in blazing the air trail from the United States to England: Commanding Officer, Lieut. Commander A. C. Reed, Pilot, Lieut. E. F. Stone, Pilot Lieut. W. Hinton, Radio Operator Engineer N. C. Rodd, Engineer Chief Mechanic Rhodes, Reserve Pilot Engineer Lieut. J. L. Breeze.

When Commander Reed left his big seaplane glide down on the water in Plymouth harbor he had covered 3,900 miles, a record over water flying.

THE WEEKS LEGISLATIVE PROGRAM

HARRISBURG, May 31—Conservation, the Philadelphia charter and revenue legislation will be the three important points on which the work of the House and Senate will rest during the next week.

305th SANTAY TRAIN ARRIVES

NEW YORK, May 31—The American transport Rotterdam arrived today with troops of the 80th Division. The 305th Sanitary train complete was aboard.

H. W. R. TEAM GIVES BIGGER TROUNCING
CHEAPER BEEF IS PROMISED IN THE NEAR FUTURE

The H. W. R. Co. team of Clearfield traveled to Bigler on Decoration Day morning and won from Bigler by the score of 9 to 2. Bigler played a good game considering this being their first game of the season. Archie Kirk, the colored phenomenal pitcher for H. W. R. Co. pitched a wonderful game having 15 strike-outs in 8 innings and had 4 hits at 4 times up. They played only 8 innings so that one of automobiles could get back to Clearfield in time to transport the old veterans to the cemetery.

The line-up:

	AB.	R.	H.	E.
Bigler	4	0	1	1
Merritt, 3b	4	0	0	1
Stevens, rf	4	0	0	0
Shugerts, lb	4	0	3	2
Hughes, lf	4	0	0	0
Snouse, c	4	1	0	0
Michaels, cf	3	0	0	0
Rowles, ss	3	1	0	0
Waple, 2b	3	1	0	0
A. Hughes, p	0	0	0	1

	AB.	R.	H.	E.
Clearfield H. W. R. Co	9	2	5	7
Beahan	5	1	1	0
McGoey	4	1	0	1
P. Roseberry	5	2	3	0
Fender	5	2	2	1
Kirk	4	2	4	0
Eadie	3	0	1	0
Council	5	1	0	0
Moore	4	0	1	0
Peorman	5	0	0	0

Struck out by Kirke 15; by Hughes 11. Bases on balls off Kirke 6, off Hughes 2. Two base hits—Roseberry and Kirk.

A record of service that has probably few equals is that of Miss Harriet P. Houghton, who has been in the employ of a Lynn, Mass. bank 50 years.

CHICAGO, May 31—Beef prices will be lowered shortly according to the American Meat Packers' Association. In a statement here today the association said that "declines will be noticeable within a few days. The probable extent of the decline was not given. 'There are several reasons for the decline,' the statement said. 'Cheaper grass fed cattle are now moving to market and exportation of beef from the United States has practically ceased. The government has stopped buying.'"

Depletion of Europe's holdings and unprecedented demands will keep prices above normal for some time to come.

DARE DEVIL RACER KILLED.

INDIANAPOLIS, May 31—Arthur Thurman driver of the Thurman Special was killed and M. Molinaro, mechanic suffered a fractured skull when their car over turned on the back stretch in the 45th lap today in a Liberty sweep-stake races. Thurman driving in his first big track race lives in Washington, D. C. The car in which he met his death was a rebuilt Dusenbury. He was driving at approximately 90 miles when the car turned turtle on the treacherous back stretch. He was instantly killed. Molinaro is in a serious condition.

In her capacity as secretary of the Association of Government Labor officials of the United States and Canada, Miss Linna Bresette, of Topeka, is preparing the program for the organization's annual convention to be held next month at Madison, Wis.

COMMENCEMENT AT
C. H. S. WINDS UP
SUCCESSFUL TERM

The Commencement exercises of Clearfield High School at the High School Auditorium Thursday evening, marked the closing of the 1918-19 school year—one of the most successful years in the history of the school. The program of the evening was as follows:

Invocation—Rev. C. C. Snively.
Music—Class—"Gloria"—Mozart.
Salutatory Oration—International Treaties—Katharin Tozer.
Oration—The Value of a Business Education—Ona Baughman.
Oration—The Press—Jane Hagerty.
Valedictory Oration—Our Obligation to Government—Iver Wood.
Music—Class—"The Heavens Re-sound"—Beethoven.

Presentation of Diplomas—A. D. Bigler, Pres. School Board.
Address—Brownley Smith.
Benediction.

The commencement exercises were thoroughly in keeping with the exceptionally high character of the previous closing week exercises. The honor graduates acquitted themselves remarkably well and were fully deserving of the most generous praise and congratulations showered upon them. In his address preceding the presentation of the diplomas President Bigler made mention of the rapid growth of the high school during the past few years and stated that the per capita cost per pupil in our schools was twenty-five per cent lower than that of the lowest among from 500 to 300 high schools selected at random from a survey of as many towns and cities throughout the United States.

This fact together with the high character of the work done and the recognition received from educational institutions and educators generally throughout the State and college world stamps Clearfield High School as one of the very best to be found in the smaller towns and cities of Pennsylvania.

That our people appreciate its advantages is shown, Mr. Bigler said, from the phenomenal growth of the high school, which showed a total enrollment of 161 in 1911, while this year records show 433 pupils.

Clearfield High School pupils are admitted to the different colleges without further preparatory training, and of one hundred fifty admitted to colleges during the past few years, but three failures were registered.

SENATOR PENROSE ANNOUNCED AS COMMENCEMENT SPEAKER

State College, Pa., May 31—Senator Penrose will be the commencement speaker at the Pennsylvania State College this year. He will deliver his address to the graduating class of 1919 in the Schwab Auditorium on June 11.

Senator Penrose will be the first speaker to have appeared on Penn State's Commencement program since 1915, when Dr. H. Walton Mitchell, president of the Board of Trustees, gave the oration. Since that time the custom has been discontinued because of the large graduating classes and the time required to present the diplomas. This year, however, the practice will be resumed as there are only about 120 seniors to receive sheepskins.

SPROUL SIGNS MEASURE TO STOP BOLSHEVICK OUTRAGES

HARRISBURG, May 29—Governor Sproul has approved the \$5,000 award measure offered for the arrest and conviction of persons threatening the lives of prominent citizens and destruction of property. The introduction of the measure followed the finding of a bomb in the New York post office addressed to Governor Sproul and Attorney General Wm. I. Shafer.

The Governor also approved the Dawson measure providing for a stat sinking fund to take care of the \$50,000,000 road bond issue.

FROM HERE AND THERE

Rembrandt, the great painter, knew the Bible by heart from end to end.

MEMORIAL DAY IN
CLEARFIELD WAS
QUIET OCCASION

Memorial Day in Clearfield passed off very quietly. The usual program was most successfully carried out and a large concourse of people assembled at the cemetery to participate in the ceremonies there and pay grateful tribute to the memories of our valiant soldiers who have answered the last roll call.

The parade which traversed the principal streets of the town was participated in by the band, world war service men, firemen, P. O. S. of A. and Veterans of the War of '61 in automobiles.

The Athletic Carnival held at the Driving Park on Decoration Day by Clearfield Lodge No. 540 B. P. O. Elks in the interest of the Salvation Army Home Service Fund was a most highly successful affair and as a result the fund will be enlarged to the tune of several hundreds of dollars when the final accounting is made.

The baseball game between Clearfield and Curwensville resulted in favor of the home team by the score of 14 to 6. Following is the box score of the game:

	R.	H.	O.	A.	E.
Pilkington, c	2	2	3	2	0
C. Bailey, 3b	0	1	0	1	0
S. Robinson, ss	2	2	2	1	0
I. Robinson, lb	0	1	3	1	0
Hipps, rf	0	0	7	1	0
L. Bailey, mf	1	3	3	0	1
Potter, p	2	1	2	1	0
Ferguson, rf	0	0	7	1	0
Bryn, 2b	0	0	1	2	0

Clearfield
McCloskey, lf, 2 2 3 2 0
Benz, lb, 1 0 3 2 0
Collins, rf, 2 1 0 0 0
Fauver, 2b, 2 2 1 0 0
Hebbling, mf, 0 1 1 0 0
Roseberry, ss, 0 4 2 2 0
Shave, 3b, 3 1 2 2 0
Lorish, c, 2 2 14 3 0
G. Bower, p, 1 0 0 1 0
L. Bowes, p, 1 0 0 0 0

Total 14 13 27 13 0
Two base hits—Pilkington, T. Bailey, 2; W. Fauver, Roseberry. Struck out, by Bows 14; Potter 6.

The other Athletic prizes were won as follows:
One hundred yard dash; Larish, st.
Bowes, 2nd, Walsh, 3d.
Two hundred twenty yard dash—Mohny, 1st; Anderson 2d.
Four hundred forty yard dash—Geppert, 1st; Mohny, 2nd; Parks, 3d.
Half mile—J. Smith, 1st; Mohny, 2d; W. P. Smith, 3rd; Walsh 4th.
Pole Vault—Powell, 1st; Gardner, second.
Shot Put—Roberts, 1st; Leasure, 2d.
Boog, 3d.
Fat Man's Race—Bill Smith 1st; Linsensbiger, 2d; Star, 3d.

The wrestling and boxing bout in the evening attracted a capacity house and resulted in Manager Katzman's Boardman Athletic Club coping all the wrestling prizes. Roberts, the champion of the Knox township metropolis, demonstrated that he was a real champ. Gardner and Henderson, local boys, both gave good accounts of themselves.

The Boardman Midglets, "Music Box" Petrola and "Comical Joe" Kroski, put up a fine exhibition and made a great hit with the crowd.

The four round boxing contest between Griffin, the colored marvel, and Kid Condon, was very much enjoyed. The Kid has been out of training for a long time and was not in shape for a hard battle, but went on to oblige the committee and from a desire to help the good cause along. Griffin is one of the best big men in the ring these days and showed to advantage. Following the bout he demonstrated the strength of his copper lined stomach by allowing his handler to land several bare-knuckled punches on his head.

Several hundred enthusiastic baseball fans saw the H. W. R. Co. and N. Y. C. teams play a game in the evening. The Twilight League games are supposed to be seven innings, but at Shillen, of Clearfield, were second the score was tie, and they played high in the prize dance.

HI AND J. K. THE
PRIZE JOHNSON
BOYS OF AMERICA

You've got to hand it to those Johnson boys. They sure are progressive. Take Senator Hi of California, for instance, he is a real sure-enough blown-in-the-battle Progressive, and is in favor of going ahead like—well never looking back.

Then on the other hand we have our rotund friend J. K., of Tyrone, who is the Grand Mogul Extraordinary of the Tyrone & Clearfield branch of the Pennsylvania. J. K. is progressive, too, only he progresses backward like a real sure-enough crab. In fact J. K., or his big boss Hines, has certainly crabbled the passenger facilities on our good old one-horse rail-road.

When the New York state legislature got concerned about the welfare of the proletariat who were forced to hike about the state in ordinary day coaches, and provided that the Pennsy would have to furnish none but late style steel coaches, "J. K." according to orders, or out of the pure goodness of his heart promptly bundled up our comfortable "steel palaces" and rolled them up to the land where they produce Democratic Irish to preside over Republican Pennsylvania Dutch public schools.

Bing unable to secure the old original horse drawn street cars only recently shunted off the streets of New York the fellows in charge of passenger equipment dug into the scrap heap and unearthed the present ancient hemlock passenger cars for use on our branch.

They were placed in commission about May 1st and have since been wearily creaking and protesting making their way over the mountains between Tyrone and Clearfield. Old "J.K." is a darn good railroader if he did mean trick us on those coaches, and it did not take many night in sections of the dilapidated old former derelicts to disclose to his practiced eye that forty miles in two hours was entirely too swift for his old lumber piles and something would have to be done to keep the cars on the rails intact at least.

Like Christoforo Colombo when he stood the egg on its head the wily Superintendent took a chance. He slowed up the schedule and the morning train from Tyrone due here at 10:45 when the rolling stock "trackers" properly now is scheduled to roll haltingly into the station at 11:15.

That is 11:15 is the scheduled time for arrival but sometimes the train really arrives at 11:05 and that gives the train crew ten minutes extra time to carpenter the creaks and breaks and get her ready for the final twelve miles to Grampan.

An effort is being made to secure the coaches so long in use by the Pittsburgh & Susquehanna (old Allegheny) for the near future. In the meantime Bro. Johnson says one advantage of the old over the new vestibul steel coaches is that passengers can get off either side of the train and at both ends of each coach.

INVITATIONS ISSUED.

Mrs. Anna Knight has issued invitations for the wedding of her daughter Ada Pearl to Edwin H. Johnson, of Bantersboro, Wednesday morning, June 12th at eleven o'clock in the Trinity Methodist church.

Miss E. E. Ketteroff, teacher in the C. H. S. left for her home in Selinsgrove yesterday.

The game was called by Umpire Haines on account of darkness, the score still standing, three to three. The game will be played off at some future time. Archie pitched a wonderful game for the H. W. R. Co. He had already pitched a full game at Bigler in the morning. He only allowed three hits. Both teams still hold one thousand per cent.

The \$10 prize awarded to the most graceful couple on the dancing floor was given to Abe Addelman and Miss Henderson of Philipsburg. Jimmie Sheridan of DuBois, and Miss Margaret Shillen, of Clearfield, were second high in the prize dance.

DELEGATES REITERATE
REFUSAL TO ACCEPT
CONFERENCE TERMS

PLEAD ABSOLUTE INABILITY TO LIVE AS
NATION IF CALLED UPON TO PAY
THE FULL PENALTIES

ALLIES MAP OUT MILITARY MOVE

By CARL D. GROAT

(United Press Staff Correspondent)

BERLIN, May 30, delayed—Germany's final counter proposals to the peace treat reiterate that the delegates will accept no terms which the countr cannot fulfill, it was revealed today.

The summaries filed out at Versailles showed the counter proposals contained the following additional points:

The German delegates are astounded at the contents of the treaty and are convinced they cannot be fulfilled.

The treaty is beyond Germany's strength and would sentence Germany to slavery.

Strip her of all resources.

It would remove Germany from any semblance to self-determination.

The people are forced to sign their own death warrant.

West Prussia, the Saar valley and other regions are said to represent too great a reduction of German territory.

Self-determination is proposed for Alsace-Lorraine although the Germans admit their right to abandon the province of Posen which the Germans do not attempt to deny is colonized by Poles.

They will give Poland access to the sea through the free ports of Danzig, Koenigsberg and Memel.

Germany guarantees to supply France with coal, especially the Saar basin, until the French mines are restored.

Pleiscites are asked in Schleswig Austria and Bohemia.

Arrangements are being made for paying 25 billion indemnities. Germany offers to supply 20 million tons of coal within 5 years and 8 million tons a year thereafter to replace France's output. She will also arrange for other coal for France, Italy, Belgium and Luxemburg.

Arrangements are made to provide Benzol and other products.

Pooling of German ships is suggested. Germany to share in the use of the ships.

Verbal discussion of the terms is asked for the remainder of the conference.

BASEL, May 31—A dispatch from Mayence received here today stated, that in case the Germans refuse to sign the treaty, the French high command has received orders to advance 80 kilometers (50 miles) eastward from the present zone of occupation. British troops will occupy the Ruhr district, the dispatch said. Six hundred technicians and engineers have been summoned to Cologne to prepare for such a move it was said.

By FRED S. FERGUSON

PARIS May 31—The Austrian treaty will be presented to the enemy delegates in St. Germain at noon Monday it was announced today at the conclusion of a secret plenary session of the peace conference. The meeting adjourned at 5:15 p. m. after having lasted two hours and a quarter.

The German counter proposals are remarkable in that they propose certain points that were like those which the less extreme element among the Allies stood for during the early session of the conference. The amount which Germany agrees to pay in reparation, 25 billions for instance, is practically the exact figure which the American delegates insisted upon. The belief that Germany probably would be taken into the League of Nations immediately but for the unyielding opposition of France was reiterated in certain quarters today.

A. O. OF DIMINISHING

WASHINGTON, May 31—Present plans for the war department are not to provide for an army of occupation after September, it developed in the House Military Affairs committee hearing today. Major McKay, representing the department, declares the plans will provide for an army of occupation of 600,000 men in July, 400,000 in August and 200,000 in September.

Yes, it is really Saturday, not blue Monday.

MISSED NOTHING IN THE NEWS

Clearfield was virtually cut off from the outside world from the time of issue of Thursday evening's Progress until this morning. Everybody eagerly grasped the morning newspapers to see what had happened in the interim. So far as peace conference news is concerned nobody was any wiser this morning. This morning's papers carried almost identically the same news as the Thursday evening Progress. The Philadelphia Record features the counter proposal of the Huns demanding entrance to the League of Nations and their proposal to disarm conditional on the disarming of the Allies. Nothing new about that for Progress readers. Only proves once more that the evening paper is the logical paper to get hot news and that The Progress is always there with the headlines.

WANTED: A MEMORIAL DAY

One year hence Clearfielders will pay their respects to their hero dead. Whether the ceremony at that time will be a makeshift and hurried demonstration depends much upon the consideration that is given the subject during the year. Clearfield's Memorial Day exercises are lacking in that general way which shows a genuine community respect which our departed heroes deserve. We are all at fault, the newspapers as well as the individual citizen. We all have a part to perform. A great deal of the trouble lies in the lack of preparation for the event. Too many of the important features of the day are not arranged until just a few days before the date. We are not criticizing the generous and sacrificing people who have taken the bull by the horns and made the best of a bad situation in the past. We are only pleading for a more universal participation in the Memorial Day exercises.

We believe that the Memorial Day exercises would be more successful if held in the forenoon as they are held in the majority of places. The intense heat of the May day afternoon is too much for the veterans of '61 and taxes the strength of the women and children who desire to go to the cemetery on the hill. By having it in the forenoon the crowds would be increased four fold as the younger generation will turn out knowing that they have the afternoon and evening for recreation and sport, and the young people will not be deprived of that feature of the day. A baseball game and sports are always in order on Memorial Day and have their place in the afternoon and evening.

Yesterday the heat was responsible for hundreds staying away from the exercises; likewise hundreds wended their way to sporting events and sought healthful recreation and those who were brave enough to stand in the hot rays of the sun suffered innumerable headaches.

As a whole and under the circumstances Clearfield made a poor showing at her Memorial Day services. We can do better. We must do better. We owe it to the veterans. Let us keep this in mind and when May first rolls around again, take the bull by the horns, so to speak, procure speakers of the first magnitude, hire the best band in the neighborhood and all the citizenry turn out to do honor to whom honor is due. And don't forget the forenoon suggestion.

Ready To Serve Business Men

The bank for the business man is one that is able and willing to take care of his wants, to lend him the money he requires for the legitimate needs of his business.

The County National Bank with invested capital of over \$1,200,000 and resources of more than Six Million Dollars, is large and strong enough to care for the needs of the business community.

Its officers and directors are interested in the advancement of this district. They are glad to offer to conservative business men, the advantage of an alliance with an old and capably managed bank.

Your account is invited.

Porch Swings With COMFORT Built Into Every One

Two or three times you've sat in a porch swing that you just had to MAKE yourself get out of. Comfort was paramount.

That's just the sort of swings that we want to have you drop in here and examine. Made of maple and oak in such a way that they'll last for years. There's a tilt to the seat and back that will just fit you. The chains are heavily galvanized to protect them from rusting. Come in dark stained oak finish.

Think how much more comfortable and how much cozier your porch would be with one of these.

SUNDAY SCHOOL LESSON

(By REV. P. E. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.)
(Copyright, 1919, by Western Newspaper Union.)

LESSON FOR JUNE 1.

FAITH, WHAT IT IS AND WHAT IT DOES.

LESSON TEXTS—Hebrews 11:1-40; 12:1. **GOLDEN TEXT**—Ye believe in God, believe also in me.—John 14:1. **ADDITIONAL MATERIAL**—Matt. 5:8; Mark 7:24-25; Rom. 1:16-17; 2:21-26; 5:1; 1 John 5:4. **PRIMARY TOPIC**—Story of a Man Who Believed in Jesus. (John 8:30-33). **JUNIOR TOPIC**—Heroes of Faith. **INTERMEDIATE TOPIC**—The Victory of Faith. **SENIOR AND ADULT TOPIC**—The Place of Faith in Religious Life.

In Hebrews, chapters 1-10 the grounds of faith are clearly set forth. In this lesson its nature and glorious triumphs are displayed.

1. The Nature of Faith (11:1-3). 1. Faith is the eye of the soul, enabling it to see the invisible (v. 1). It is not merely intellectual assent to that which commends itself as being reasonable, but it is the soul's attitude toward God.

2. Faith seizes the things of the future and lives and walks in their power in the present (v. 1).

3. It enabled the "elders" to obtain a good report (v. 2). It made God's promises so living and real to them that it became the dominant force in their lives.

4. Faith enables us to understand how the worlds were made (v. 3). No man was present when God made the worlds, so the foundation for our knowledge is the Word of God. The one who has faith wholly believes that Word.

II. The Triumphant Victories of Faith (11:4-38).

1. Faith of the antediluvian saints (vv. 4-7). As representative of this period three men are pointed out: (a) Abel (v. 4), who displayed his faith in his worship. He took his place before God as a sinner and offered a bloody sacrifice, thereby showing that he looked forward to Christ's atonement, which is substitutionary—a life for a life. (b) Enoch, who displayed his faith in his walk in fellowship with God (v. 5). (c) Noah, who by faith stood loyal to God in a time of universal apostasy and wickedness (v. 7). Noah's task was a stupendous and difficult one. He executed it in the face of many a sneer and taunt, but his faith carried him through, securing salvation for himself and his family.

2. Faith of the Hebrew saints (vv. 8-38). (a) Abraham (vv. 8-10, 17-19). Abraham went out not knowing whither he went, but he knew that the Lord had spoken and that was enough. By faith he offered up Isaac, believing that God was able to raise him up from the dead and fulfill his promise that in Isaac the promised seed should obtain. (b) Sarah through faith received strength to conceive seed when she was old, counting him faithful who had promised (vv. 11, 12). (c) Jacob by faith pronounced a prophecy concerning Joseph's sons (v. 21). By faith he penetrated the unseen and pronounced destinies which should be experienced by them both. (d) Joseph by faith foresaw the entrance of his people into the promised land and made them swear to carry his bones there for burial, for even his body must not be left behind in the land of judgment and death (v. 22). (e) Moses (vv. 23-28). Faith in the hearts of his parents caused them to disregard the king's decree. Faith caused him to turn his back upon the honors of Egypt and identify himself with his enslaved brethren.

III. Faith's Grand Exemplar (12:1, 2).

Christ taking upon himself human nature and passing through the trials of life to a triumphant goal is the supreme example for us. Those who fix their eyes upon him will (1) lay aside every weight. To run with success all burdens must be cast off. Things which may not be sinful in themselves, if they impede our progress must be laid aside. (2) Lay aside the sin which doth so easily beset us. (3) Run with patience the race set before us. (4) Looking unto Jesus. Our eyes must be steadfastly fixed upon him. Having him as our example we will endure the cross. To follow Jesus means suffering and trials.

Love as a Word.

Love, even as a word only, must stand alone. It is one of the great monosyllables of our great language—Love. It is the invisible gravitation of life. With its invisible cords, viewless but potent, it draws hearts together over eternal spaces, and holds them together in an indissoluble bond in Time and Eternity.

The Wonder of It!

"Lord, when I look on my own life it seems thou hast fed me so carefully, so tenderly, that thou canst have attended to no one else. But, when I see how wonderfully thou hast led the world, and are leading it, I am amazed that thou hast had time to attend to such as I."—St. Augustine.

Why Man Falls.

Man could not fall so low were he not so great. It is the abused God in a man that turns him into a devil.

In England houses are being built of a new kind of concrete, made primarily from slag and seaweed.

JUNE BRIDE SUGGESTIONS

A HELPFUL SERVICE

The gift for the June bride must be in harmony with the occasion. To accomplish this selections must be made with care and without undue haste.

That is where this store's service once more comes to the fore. And to this store the bride-to-be should come—to this store those expecting to make gifts to the brides-to-be should come—every little detail of our selection will be given the best of attention and the prices are entirely a matter of your own selection—the range is wide.

Carborundum Stones

The sharpest and fastest cutting abrasive material known, is found in Carborundum and Aloxite stones.

The line includes sharpening stones for every use, grinding wheels, razor strops, valve grinding compound and cloth.

Our window this week shows the carborundum in its crude form the materials of which it is made, and the various finish products.

It cost 3 million dollars

to perfect The NEW EDISON

BUT the three million dollars was the smallest part of it. Any group of capitalists might devote this sum to the perfection of a phonograph. But lacking the native genius and hard won experience of Thomas A. Edison they would fail of their object. It required the combination of the three million dollars plus the brain of the world's greatest inventor to achieve

The NEW EDISON

"The Phonograph with a Soul"

What is the result? An instrument which RE-CREATES the artist's voice or instrumental interpretation with such complete fidelity that even by the test of direct comparison it is impossible to distinguish between the two renditions. This has been proved by public tone tests, not once, but more than 1500 times. More than thirty great stars of Grand Opera have conducted these tests. More than five hundred newspaper critics have supported our assertion regarding this marvelous instrument.

Drop into our store the next time you are downtown. Hear your favorite songs RE-CREATED on the Official Laboratory Model. Then decide whether or not you want this three million dollar instrument in your own home.

WOODLAND BRICK MAKER KILLED ON PENNSY RAILROAD

Charles Ballou a Hungarian, aged about 42 was run over and killed Thursday evening last by the passenger train on the Pennsylvania railroad which arrived in Clearfield at 6:45.

Ballou, who was employed at the Harbison-Walker brick works at Woodland was walking down the track toward Mineral Springs when the accident happened. Engineman Johnson saw the man ahead of him and after sounding his whistle several times expected him to get off the track as the train approached, as so often has happened in similar cases. When the engineman saw he was going to strike him he tried to stop his train but the momentum was too great and Ballou was knocked down and the train passed over him.

His badly mangled body was loaded onto the train and brought to Clearfield where it was taken in charge for burial by Undertaker Leavy.

Ballou had formerly been employed at No. 2 brickworks in Clearfield for more than ten years. He leaves a widow and family in the old country.

We have heard it said that the present passenger car relies in service on this branch of the Pennsylvania were really responsible for the wreck, the engineman failing to gauge the distance he could stop his train in and there not being crew sufficient to man the old handbrakes when the emergency arose. We do not know how true this assertion is, but judging by the appearance of these cars such a thing could happen.

HEALTH THRU RIGHT LIVING CHURCH THEME OF FEDERATION

The productive capacity of the world would be at least doubled if the health of the Non-Christian races could be brought up even to the level of the health of the Christian nations. That deduction, based on statistics of progress everywhere, is the underlying idea in a program for the study of life-conservation to be presented in a series of summer conferences at announced by the Inter-church World Movement of North America, Americanization of our foreign born citizens is the second great plank in the platform for the meetings.

Practically every organization of any magnitude connected with the missionary and welfare work of seventy-six Protestant denominations will be represented at the conferences, which are to be primarily training schools for leaders of the great Inter-church campaign. The series begins with the meeting at Blue Ridge, N. C., June 24 to July 3, followed by Silver Bay, N. Y., July 4 to 13; Estes Park Colo., July 11 to 20; Asilomar, Calif., July 15 to 24; Ocean Park, Me., July 18 to 27; Lake Geneva, Wis., July 25 to August 3; and Seabeck, Wash., July 30 to Aug. 8.

The Missionary Education movement has given up to the inter-church movement all the facilities for the missionary training conferences it has conducted in past summers, including the personnel of its field organization, to take effect tomorrow, June 1, and the Laymen's Missionary movement has taken similar action, according to word just given out by national officials to the two organizations. With these combined powers added to the representative forces of the larger project, there is an expanding and diversifying of the scope of the summer meeting, that leaves only a slight resemblance to those of other years. The seventy-six denominations in the scope of the Inter-church movement, with 200,000 separate churches and congregations totaling more than 50,000,000 people, are combining their resources for systematic effort to improve conditions of life in all parts of the world. By the introduction of Christianity, the modern interpretation as furthered by the Inter-church project means also introduction of the benefits of Christian methods of living in sanitation, child culture, working conditions, housing, clothing, scientific methods of production and manufacture and any other element conducive to prosperity, health and general usefulness in the world.

In the summer conferences the various phases of the Inter-church campaign will be presented by men in charge of the departments. There will be reports of progress made on the various subjects now being conducted in the home and foreign fields, on which the definite program of the movement is to be based. Volunteer will be called for to enlist in both the home and foreign service, a being estimated that more than 200,000 will be needed to supplement forces now at

SPECIFICATIONS

The Pilot Six Forty-Five Is The Result of Eleven Years of Scientific Engineering Principles Properly Applied

MOTOR—PILOT TEETOR—Six cylinders, 3 1/2 inch bore, 5 inch stroke. L-Head. Cast en-bloc. Top half crank case and cylinders integral. Valves enclosed. Cam, pump and generator shafts gear driven and enclosed in oil tight case. Helical gears used. S. A. E. horsepower 23.44, actual horsepower more than 45.

LUBRICATION—Splash system, reinforced by pump which forces oil direct to all main bearings. Oil gauge on motor base. Oil pump accessible.

COOLING—Centrifugal pump. Genuine cellular radiator. Pressed steel fan, belt driven.

TRANSMISSION—WARNER—Selective Sliding gear. Three speeds forward and reverse. Nickel steel gears and shafts enclosed in case with motor and clutch forming unit power plant.

CLUTCH—BORG & BECK MULTIPLE—Dry plate, eleven disc.

FRAME—Pressed steel, heat treated and hot riveted, with reserve strength to insure absolute efficiency and safety.

TORSION ROD—Triangle. Forward end fitted with double spring buffers and ball and socket joints.

FRONT AXLE—I-beam type, drop forged. Roller bearings.

REAR AXLE—Full floating type. Spiral bevel gears. Vanadium steel shafts. Drive shafts removable. Differential gears adjustable and easily removable. Roller bearings.

BRAKES—Internal expanding and external contracting.

SPRINGS—(Front) Half elliptic, 36 inches.

SPRINGS—(Rear) Cantilever, 52 inches.

CONTROL—Left side drive. Center control, ball and socket type. Gear shift and brake levers connected directly to transmission case.

STEERING GEAR—Irreversible worm and sector type. Fitted with polished walnut steering wheel. Provision for adjusting all parts subject to wear.

GASOLINE SYSTEM—Stewart vacuum feed. Gasoline tank in rear. Easy of access and properly located for correct distribution of weight.

CARBURETOR—Specially designed for Pilot Motor. Hot air jacketed.

IGNITION—Delco. Two Unit.

ELECTRIC LIGHTING—Delco.

STARTER—Delco.

BODIES—Five Pass. Touring; latest stream line cowl design. 5 pass. Roadster; four door full stream line effect. 4 pass. Coupe; automatic disappearing and adjustable glass all around. 5 pass. Sedan; automatically converted into open touring at will.

UPHOLSTERING—Deep, comfortable cushions. Genuine high grade leather.

COLOR AND FINISH—Standard finish; bodies wheels, frame and running gear finished in dark Brewster green. Fenders, hood and dust shields black. Lamps, black, nickel trimmed. Will furnish any other color desired at extra charge.

WIND SHIELD—Adjustable rain vision ventilating type. Modeled to conform to lines of cowl.

HORN—Electric motor driven horn mounted under hood. Horn button in top of steering column.

TOP—"One man" top with dust cover. Patent locking Bar top holders.

WHEELS—Artillery type—32x4 inches—fitted with demountable rims. One extra rim furnished.

TIRES—32x4.

WHEEL BASE—120 inches.

WEIGHT—2790 pounds.

Meat Injurious To The Kidneys

Take a Tablespoonful of Salts if Back Hurts or Bladder Bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative viscous clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night, when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grape- and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

STOMACH TORTURE GONE; FIRST SLEEP IN THREE MONTHS

Mr. Heinrichs Was Ready to Give Up. Then He Found How to Regain Health.

"The first sleep I had had in three months was on the second night after I began using Milk's Emulsion. I had a bad case of stomach trouble and constipation for years and was ready to give up. I was troubled with gas, dizziness, bloated after eating, growing sensation and cramps in the stomach. Milk's Emulsion was a God-send to me, and I want everyone to know about a medicine that will cure such like mine."—C. E. Heinrichs, 702 S. Alabama St. Indianapolis, Ind.

Mr. Heinrichs and thousands of other former sufferers from stomach trouble, indigestion and bowel troubles, have found that Milk's Emulsion gives prompt relief and real lasting benefit. Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and purgatives. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to run-down nervous people and it has produced amazing results in many cases of tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children. No matter how severe your case, you are urged to try Milk's Emulsion under the guarantee. Take six bottles home with you. Use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 40c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Stewart's Drug Co.

Shoe Talk Worth Heeding

Men's Smart Oxfords

There is a sense of great comfort in wearing a good pair of oxfords, but in knowing that the shoes are fashionably correct there is a sense of extreme satisfaction. Our oxfords combine both comfort and style, for they are built on sensible lasts that give free play to the foot without sacrificing the good looks of the shoe. Medium toes, low, broad heels and welted soles. For quality they compare favorably with shoes sold elsewhere at higher prices.

White Shoes Essential To Complete Summer Wardrobe

A woman's wardrobe is not complete without a pair or two of white shoes for they serve many purposes and add immensely to the charm of one's costume. White buckskin lace shoes with graceful Louis heels, and white sports shoes in high or Oxford styles are fashionable, and those women who prefer cloth to leather will have the choice of a number of styles in high lace models, with turned soles and Louis heels. We cannot lay too much stress on the smartness of white footwear for women.

Boys' Shoes The Kind That Will Stand All Kinds of Hard Knocks, and Give Long, Satisfying Service

For the growing boy, or the boy who wants to play and play hard, there is needed shoes that will stand the wear and tear, and yet come within the reach of reasonable bounds of cost. And shoes for such boys as these often give parents their greatest concern for a boy very often wears out one pair before he has a chance to get another. These shoes have been built for just such boys, the kind that play good and hard, and are strong and healthy. A good manly laced model, and comfortable fitting.

Ross & Woods THE HOME OF THE EDUCATOR SHOE

PAPER BULLETS HAD THE GERMANS GUESSING HARD

LONDON, May 30.—One result of the war has been to teach the world how to spin a fibre from paper, which for durability is only exceeded by that made from the best linen thread. The bulk of this new paper thread comes from Norway and Sweden. They call it "kraft," which means "strong," and the name is well deserved. Many thousands of tons of it are now being imported into England for use in the upholstery trades, and in the manufacture of carpets. An ordinary piece of webbing two inches wide made from this material is so strong that it is impossible to tear it. And as the rain doesn't hurt it, it has been found an excellent substitute for canvas in the making of tents. The strangest use to which the new fibre has been put, however, consists in making bullets with it. Millions of these paper bullets were fired at the Germans during the closing stages of the war, and months elapsed before the Hun found out, by cutting some of them open, that they were different from other bullets.

When they did discover that enclosed within their thin outer coverings of nickel was a substance, the properties of which they didn't understand, there was a great outcry. They promptly accused the Allies of using poisoned bullets, explosive bullets, and other similar contrivances, while as a matter of fact the mysterious substance was nothing but paper.

Says Hot Water Each Day Keeps The Doctor Away

Drink Glass of Hot Water Before Breakfast to Wash Out the Poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only take the morning inside bath. For those who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy, by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone whether ailing, sick or well, should each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the kidneys, stomach, liver and bowels, the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one splendid appetite for breakfast. While you are enjoying your breakfast, the water and phosphate are quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, stomach trouble, rheumatism, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Gossip for Tonight's Tea Table

Mrs. Bernard Simons is visiting her parents, Mr. and Mrs. Joseph Ross.

Misses Lillie Olson and Agnes Vaughn of Curwensville spent last evening with friends here.

Clark Kittleberger is transacting business in Pittsburgh.

Mr. and Mrs. Roy Reed, of Osceola, spent yesterday with the latter's parents Mr. and Mrs. George Conklin on W. Front street.

LEONARDSON'S—THE QUALITY STORE

Store Editorial

THE ACID TEST

Supposing you decided on purchasing a certain item tomorrow.

How would you go about determining where the best value was offered?

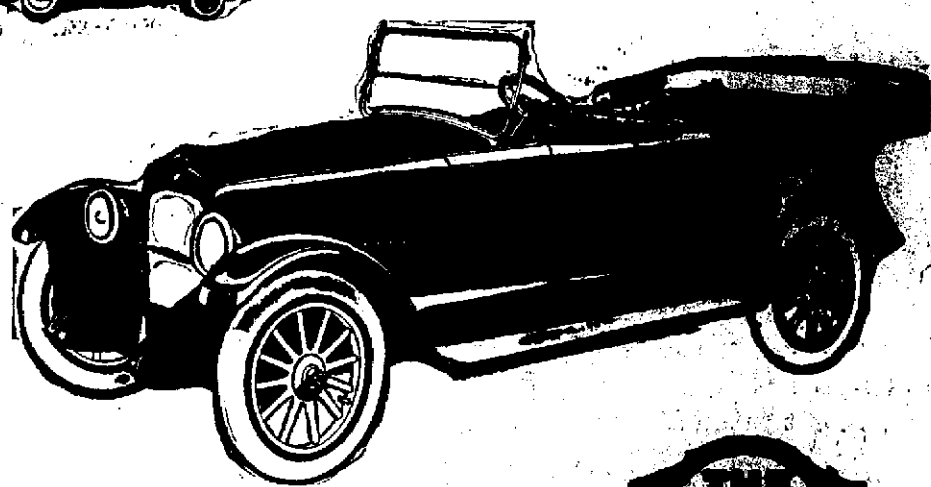

The test of comparing old purchases with the new one is out of date. Prices change almost daily.

But one test is always correct.

Go into every store, examine closely that item, and then come here.

We frankly tell you that that is the only way. We can safely give you such advice because we know that you will soon learn that direct comparisons are unnecessary—THAT THIS STORE'S VALUES ARE INVARIABLY BEST.

A. W. LEONARDSON CO.

Looks unusually powerful —it is unusually powerful

The trim and clean-cut appearance of the Nash Perfected Valve-In-Head Motor is almost invariably commented upon by those who look under the hood of a Nash Six. And its performance is in keeping with its appearance. In owner service it has proved unusually powerful, economical and quiet.

YANKS COMPLETE TRANS-OCEAN FLIGHT
HUNS AVER THEY CANNOT FULFILL TERMSCOMMANDER REED GLIDES INTO
PLYMOUTH, ENGLAND, AMID CHEERS

By EDWIN HULLINGER

PLYMOUTH, ENG., May 31—Completing its great flight over the Atlantic, the American seaplane NC 4, swept into the harbor at Plymouth at 2:26 p. m. today. The huge ship of the seas under the direction of Lieut. Commander A. C. Reed, her skipper on the whole historic air voyage left Ferrol, Spain, on the last lap of the trip shortly after 6 o'clock this morning. She spent the night at Ferrol after having been forced by engine trouble to descend in a river 100 miles north of Lisbon from which point she started for Plymouth early Friday. An eager crowd greeted the triumphant Yankee sea plane here. Crowds rushed to vantage points when the word came that she had been sighted. It was given a royal welcome.

WASHINGTON, May 31—American flyers completed the journey from New York to England in an aeroplane. Admiral Knapp at London cabled the Navy department in a message which reached here at 9:52 Washington time saying "NC 4 arrived Plymouth." The great feat accomplished when the NC 4 arrived at Plymouth this morning marks the climax of a modern system experiment to defeat the obstacles of trans-Atlantic flying. Nearly 4,000 miles were covered by the Navy plane. The actual flying speed averaged between 70 and 80 miles.

Here are the men who left Rockaway Beach May 8 and who will go down in history as pioneers in blazing the air trail from the United States to England: Commanding Officer, Lieut. Commander A. C. Reed, Pilot, Lieut. E. F. Stone, Pilot Lieut. W. Hinton, Radio Operator Engineer N. C. Rodd, Engineer Chief Mechanic Rhodes, Reserve Pilot Engineer Lieut. J. L. Breeze.

When Commander Reed left his big seaplane glide down on the water in Plymouth harbor he had covered 3,900 miles, a record over water flying.

THE WEEKS LEGISLATIVE PROGRAM

HARRISBURG, May 31—Conservation, the Philadelphia charter and revenue legislation will be the three important points on which the work of the House and Senate will rest during the next week.

305th SANTAY TRAIN ARRIVES

NEW YORK, May 31—The American transport Rotterdam arrived today with troops of the 80th Division. The 305th Sanitary train complete was aboard.

H. W. R. TEAM GIVES BIGGER TROUNCING
CHEAPER BEEF IS PROMISED IN THE NEAR FUTURE

The H. W. R. Co. team of Clearfield traveled to Bigler on Decoration Day morning and won from Bigler by the score of 9 to 2. Bigler played a good game considering this being their first game of the season. Archie Kirk, the colored phenomenal pitcher for H. W. R. Co. pitched a wonderful game having 15 strike-outs in 8 innings and had 4 hits at 4 times up. They played only 8 innings so that one of automobiles could get back to Clearfield in time to transport the old veterans to the cemetery.

The line-up:

	AB.	R.	H.	E.
Bigler	4	0	1	1
Merritt, 3b	4	0	0	1
Stevens, rf	4	0	0	0
Shugerts, lb	4	0	3	2
Hughes, lf	4	0	0	0
Snouse, c	4	1	0	1
Michaels, cf	3	0	0	0
Rowles, ss	3	1	0	0
Waple, 2b	3	1	0	0
A. Hughes, p	0	0	0	1

	AB.	R.	H.	E.
Clearfield H. W. R. Co	9	2	5	7
Beahan	5	1	1	0
McGoey	4	1	0	1
P. Roseberry	5	2	3	0
Fender	5	2	2	1
Kirk	4	2	4	0
Eadie	3	0	1	0
Council	5	1	0	0
Moore	4	0	1	0
Peorman	5	0	0	0

Struck out by Kirke 15; by Hughes 11. Bases on balls off Kirke 6, off Hughes 2. Two base hits—Roseberry and Kirk.

A record of service that has probably few equals is that of Miss Harriet P. Houghton, who has been in the employ of a Lynn, Mass. bank 50 years.

CHICAGO, May 31—Beef prices will be lowered shortly according to the American Meat Packers' Association. In a statement here today the association said that "declines will be noticeable within a few days. The probable extent of the decline was not given. 'There are several reasons for the decline,' the statement said. 'Cheaper grass fed cattle are now moving to market and exportation of beef from the United States has practically ceased. The government has stopped buying.'"

DARE DEVIL RACER KILLED.

INDIANAPOLIS, May 31—Arthur Thurman driver of the Thurman Special was killed and M. Molinaro, mechanic suffered a fractured skull when their car over turned on the back stretch in the 45th lap today in a Liberty sweep-stake races. Thurman driving in his first big track race lives in Washington, D. C. The car in which he met his death was a rebuilt Dusenbury. He was driving at approximately 90 miles when the car turned turtle on the treacherous back stretch. He was instantly killed. Molinaro is in a serious condition.

In her capacity as secretary of the Association of Government Labor officials of the United States and Canada, Miss Linna Bresette, of Topeka, is preparing the program for the organization's annual convention to be held next month at Madison, Wis.

COMMENCEMENT AT
C. H. S. WINDS UP
SUCCESSFUL TERM

The Commencement exercises of Clearfield High School at the High School Auditorium Thursday evening, marked the closing of the 1918-19 school year—one of the most successful years in the history of the school. The program of the evening was as follows:

Invocation—Rev. C. C. Snively.
Music—Class—"Gloria"—Mozart.
Salutatory Oration—International Treaties—Katharin Tozer.
Oration—The Value of a Business Education—Ona Baughman.
Oration—The Press—Jane Hagerty.
Valedictory Oration—Our Obligation to Government—Iver Wood.
Music—Class—"The Heavens Re-sound"—Beethoven.

Presentation of Diplomas—A. D. Bigler, Pres. School Board.
Address—Brownley Smith.
Benediction.

The commencement exercises were thoroughly in keeping with the exceptionally high character of the previous closing week exercises. The honor graduates acquitted themselves remarkably well and were fully deserving of the most generous praise and congratulations showered upon them. In his address preceding the presentation of the diplomas President Bigler made mention of the rapid growth of the high school during the past few years and stated that the per capita cost per pupil in our schools was twenty-five per cent lower than that of the lowest among from 500 to 300 high schools selected at random from a survey of as many towns and cities throughout the United States.

This fact together with the high character of the work done and the recognition received from educational institutions and educators generally throughout the State and college world stamps Clearfield High School as one of the very best to be found in the smaller towns and cities of Pennsylvania.

That our people appreciate its advantages is shown, Mr. Bigler said, from the phenomenal growth of the high school, which showed a total enrollment of 161 in 1911, while this year records show 433 pupils.

Clearfield High School pupils are admitted to the different colleges without further preparatory training, and of one hundred fifty admitted to colleges during the past few years, but three failures were registered.

SENATOR PENROSE ANNOUNCED AS COMMENCEMENT SPEAKER
State College, Pa., May 31—Senator Penrose will be the Commencement speaker at the Pennsylvania State College this year. He will deliver his address to the graduating class of 1919 in the Schwab Auditorium on June 11.

Senator Penrose will be the first speaker to have appeared on Penn State's Commencement program since 1915, when Dr. H. Walton Mitchell, president of the Board of Trustees, gave the oration. Since that time the custom has been discontinued because of the large graduating classes and the time required to present the diplomas. This year, however, the practice will be resumed as there are only about 120 seniors to receive sheepskins.

SPROUL SIGNS MEASURE TO STOP BOLSHEVİK OUTRAGES
HARRISBURG, May 29—Governor Sproul has approved the \$5,000 award measure offered for the arrest and conviction of persons threatening the lives of prominent citizens and destruction of property. The introduction of the measure followed the finding of a bomb in the New York post office addressed to Governor Sproul and Attorney General Wm. I. Shafer.

FROM HERE AND THERE
Rembrandt, the great painter, knew the Bible by heart from end to end.

MEMORIAL DAY IN
CLEARFIELD WAS
QUIET OCCASION

Memorial Day in Clearfield passed off very quietly. The usual program was most successfully carried out and a large concourse of people assembled at the cemetery to participate in the ceremonies there and pay grateful tribute to the memories of our valiant soldiers who have answered the last roll call.

The parade which traversed the principal streets of the town was participated in by the band, world war service men, firemen, P. O. S. of A. and Veterans of the War of '61 in automobiles.

The Athletic Carnival held at the Driving Park on Decoration Day by Clearfield Lodge No. 540 B. P. O. Elks in the interest of the Salvation Army Home Service Fund was a most highly successful affair and as a result the fund will be enlarged to the tune of several hundreds of dollars when the final accounting is made.

The baseball game between Clearfield and Curwensville resulted in favor of the home team by the score of 14 to 6. Following is the box score of the game:

	R.	H.	O.	A.	E.
Pilkington, c	2	2	3	2	0
C. Bailey, 3b	0	1	0	1	0
S. Robinson, ss	2	2	2	1	0
I. Robinson, lb	0	1	3	1	0
Hipps, rf	0	0	7	1	0
L. Bailey, mf	1	3	3	0	1
Potter, p	2	1	2	1	0
Ferguson, rf	0	0	7	1	0
Bryn, 2b	0	0	1	2	0
Total	6	11	27	9	2
	R.	H.	O.	A.	E.
McCloskey, lf	2	2	3	2	0
Benz, lb	1	0	3	2	0
Collins, rf	2	1	0	0	0
Fauver, 2b	2	2	2	1	0
Hebuling, mf	0	1	1	0	0
Roseberry, ss	0	4	2	2	0
Shave, 3b	3	1	2	2	0
Lorish, c	2	2	14	3	0
G. Bower, p	1	0	1	0	0
L. Bowes, p	1	0	0	0	0
Total	14	13	27	13	0

Two base hits—Pilkington, T. Bailey, 2; W. Fauver, Roseberry. Struck out, by Bows 14; Potter 6.

The other Athletic prizes were won as follows:
One hundred yard dash; Larish, st.
Bowes, 2nd; Walsh, 3d.

Two hundred twenty yard dash—Mohny, 1st; Anderson 2d.
Four hundred forty yard dash—Geppert, 1st; Mohny, 2nd; Parks, 3d.
Half mile—J. Smith, 1st; Mohny, 2d; W. P. Smith, 3rd; Walsh 4th.
Pole Vault—Powell, 1st; Gardner, second.

Shot Put—Roberts, 1st; Leasure, 2d.
Boog, 3d.
Fat Man's Race—Bill Smith 1st; Linsensbiger, 2d; Star, 3d.

The wrestling and boxing bout in the evening attracted a capacity house and resulted in Manager Katzman's Boardman Athletic Club coping all the wrestling prizes. Roberts, the champion of the Knox township metropolis, demonstrated that he was a real champ. Gardner and Henderson, local boys, both gave good accounts of themselves.

The Boardman Midgents, "Music Box" Petrola and "Comical Joe" Kroski, put up a fine exhibition and made a great hit with the crowd.
The four round boxing contest between Griffin, the colored marvel, and Kid Condon, was very much enjoyed. The Kid has been out of training for a long time and was not in shape for a hard battle, but went on to oblige the committee and from a desire to help the good cause along. Griffin is one of the best big men in the ring these days and showed to advantage. Following the bout he demonstrated the strength of his copper lined stomach by allowing his handler to land several bare-knuckled punches on his head.

The \$10 prize awarded to the most graceful couple on the dancing floor was given to Abe Addelman and Miss N. Y. C. teams play a game in the Henderson of Phillipsburg. Jimmie Sheridan of DuBois, and Miss Margaret Shillen, of Clearfield, were second the score was tie, and they played high in the prize dance.

HI AND J. K. THE
PRIZE JOHNSON
BOYS OF AMERICA

You've got to hand it to those Johnson boys. They sure are progressive. Take Senator Hi of California, for instance, he is a real sure-enough blown-in-the-battle Progressive, and is in favor of going ahead like—well never looking back.

Then on the other hand we have our rotund friend J. K., of Tyrone, who is the Grand Mogul Extraordinary of the Tyrone & Clearfield branch of the Pennsylvania. J. K. is progressive, too, only he progresses backward like a real sure-enough crab. In fact J. K., or his big boss Hines, has certainly crabbled the passenger facilities on our good old one-horse rail-road.

When the New York state legislature got concerned about the welfare of the proletariat who were forced to hike about the state in ordinary day coaches, and provided that the Pennsy would have to furnish none but late style steel coaches, "J. K." according to orders, or out of the pure goodness of his heart promptly bundled up our comfortable "steel palaces" and rolled them up to the land where they produce Democratic Irish to preside over Republican Pennsylvania Dutch public schools.

Bing unable to secure the old original horse drawn street cars only recently shunted off the streets of New York the fellows in charge of passenger equipment dug into the scrap heap and unearthed the present ancient hemlock passenger cars for use on our branch.

They were placed in commission about May 1st and have since been wearily creaking and protesting making their way over the mountains between Tyrone and Clearfield. Old "J.K." is a darn good railroader if he did mean trick us on those coaches, and it did not take many night in sections of the dilapidated old former derelicts to disclose to his practiced eye that forty miles in two hours was entirely too swift for his old lumber piles and something would have to be done to keep the cars on the rails intact at least.

Like Christoforo Colombo when he stood the egg on its head the wily Superintendent took a chance. He slowed up the schedule and the morning train from Tyrone due here at 10:45 when the rolling stock "trackers" properly now is scheduled to roll haltingly into the station at 11:15.

That is 11:15 is the scheduled time for arrival but sometimes the train really arrives at 11:05 and that gives the train crew ten minutes extra time to carpenter the creaks and breaks and get her ready for the final twelve miles to Grampan.

An effort is being made to secure the coaches so long in use by the Pittsburgh & Susquehanna (old Allegheny) for the near future. In the meantime Bro. Johnson says one advantage of the old over the new veritable steel coaches is that passengers can get off either side of the train and at both ends of each coach.

INVITATIONS ISSUED.

Mrs. Anna Knight has issued invitations for the wedding of her daughter Ada Pearl to Edwin H. Johnson, of Bantersboro, Wednesday morning, June 12th at eleven o'clock in the Trinity Methodist church.

Miss E. E. Ketteroff, teacher in the C. H. S. left for her home in Selinsgrove yesterday.

The game was called by Umpire Haines on account of darkness, the score still standing, three to three. The game will be played off at some future time. Archie pitched a wonderful game for the H. W. R. Co. He had already pitched a full game at Bigler in the morning. He only allowed three hits. Both teams still hold one thousand per cent.

The \$10 prize awarded to the most graceful couple on the dancing floor was given to Abe Addelman and Miss N. Y. C. teams play a game in the Henderson of Phillipsburg. Jimmie Sheridan of DuBois, and Miss Margaret Shillen, of Clearfield, were second the score was tie, and they played high in the prize dance.

DELEGATES REITERATE
REFUSAL TO ACCEPT
CONFERENCE TERMSPLEAD ABSOLUTE INABILITY TO LIVE AS
NATION IF CALLED UPON TO PAY
THE FULL PENALTIES

ALLIES MAP OUT MILITARY MOVE

By CARL D. GROAT

(United Press Staff Correspondent)

BERLIN, May 30, delayed—Germany's final counter proposals to the peace treat reiterate that the delegates will accept no terms which the countr cannot fulfill, it was revealed today.

The summaries filed out at Versailles showed the counter proposals contained the following additional points:

The German delegates are astounded at the contents of the treaty and are convinced they cannot be fulfilled.

The treaty is beyond Germany's strength and would sentence Germany to slavery.

Strip her of all resources.

It would remove Germany from any semblance to self-determination.

The people are forced to sign their own death warrant.

West Prussia, the Saar valley and other regions are said to represent too great a reduction of German territory.

Self-determination is proposed for Alsace-Lorraine although the Germans admit their right to abandon the province of Posen which the Germans do not attempt to deny is colonized by Poles.

They will give Poland access to the sea through the free ports of Danzig, Koenigsberg and Memel.

Germany guarantees to supply France with coal, especially the Saar basin, until the French mines are restored.

Pleiscites are asked in Schleswig Austria and Bohemia.

Arrangements are being made for paying 25 billion indemnities. Germany offers to supply 20 million tons of coal within 5 years and 8 million tons a year thereafter to replace France's output. She will also arrange for other coal for France, Italy, Belgium and Luxemburg.

Arrangements are made to provide Benzol and other products.

Pooling of German ships is suggested. Germany to share in the use of the ships.

Verbal discussion of the terms is asked for the remainder of the conference.

BASEL, May 31—A dispatch from Mayence received here today stated, that in case the Germans refuse to sign the treaty, the French high command has received orders to advance 80 kilometers (50 miles) eastward from the present zone of occupation. British troops will occupy the Ruhr district, the dispatch said. Six hundred technicians and engineers have been summoned to Cologne to prepare for such a move it was said.

By FRED S. FERGUSON

PARIS May 31—The Austrian treaty will be presented to the enemy delegates in St. Germain at noon Monday it was announced today at the conclusion of a secret plenary session of the peace conference. The meeting adjourned at 5:15 p. m. after having lasted two hours and a quarter.

The German counter proposals are remarkable in that they propose certain points that were like those which the less extreme element among the Allies stood for during the early session of the conference. The amount which Germany agrees to pay in reparation, 25 billions for instance, is practically the exact figure which the American delegates insisted upon. The belief that Germany probably would be taken into the League of Nations immediately but for the unyielding opposition of France was reiterated in certain quarters today.

A. OF O. DIMINISHING

WASHINGTON, May 31—Present plans for the war department are not to provide for an army of occupation after September, it developed in the House Military Affairs committee hearing today. Major McKay, representing the department, declares the plans will provide for an army of occupation of 600,000 men in July, 400,000 in August and 200,000 in September.

MISSED NOTHING IN THE NEWS

Clearfield was virtually cut off from the outside world from the time of issue of Thursday evening's Progress until this morning. Everybody eagerly grasped the morning newspapers to see what had happened in the interim. So far as peace conference news is concerned nobody was any wiser this morning. This morning's papers carried almost identically the same news as the Thursday evening Progress. The Philadelphia Record features the counter proposal of the Huns demanding entrance to the League of Nations and their proposal to disarm conditional on the disarming of the Allies. Nothing new about that for Progress readers. Only proves once more that the evening paper is the logical paper to get hot news and that The Progress is always there with the headlines.

WANTED: A MEMORIAL DAY

One year hence Clearfielders will pay their respects to their hero dead. Whether the ceremony at that time will be a makeshift and hurried demonstration depends much upon the consideration that is given the subject during the year. Clearfield's Memorial Day exercises are lacking in that general way which shows a genuine community respect which our departed heroes deserve. We are all at fault, the newspapers as well as the individual citizen. We all have a part to perform. A great deal of the trouble lies in the lack of preparation for the event. Too many of the important features of the day are not arranged until just a few days before the date. We are not criticizing the generous and sacrificing people who have taken the bull by the horns and made the best of a bad situation in the past. We are only pleading for a more universal participation in the Memorial Day exercises.

We believe that the Memorial Day exercises would be more successful if held in the forenoon as they are held in the majority of places. The intense heat of the May day afternoon is too much for the veterans of '61 and taxes the strength of the women and children who desire to go to the cemetery on the hill. By having it in the forenoon the crowds would be increased four fold as the younger generation will turn out knowing that they have the afternoon and evening for recreation and sport, and the young people will not be deprived of that feature of the day. A baseball game and sports are always in order on Memorial Day and have their place in the afternoon and evening.

Yesterday the heat was responsible for hundreds staying away from the exercises; likewise hundreds wended their way to sporting events and sought healthful recreation and those who were brave enough to stand in the hot rays of the sun suffered innumerable headaches.

As a whole and under the circumstances Clearfield made a poor showing at her Memorial Day services. We can do better. We must do better. We owe it to the veterans. Let us keep this in mind and when May first rolls around again, take the bull by the horns, so to speak, procure speakers of the first magnitude, hire the best band in the neighborhood and all the citizenry turn out to do honor to whom honor is due. And don't forget the forenoon suggestion.

Ready To Serve Business Men

The bank for the business man is one that is able and willing to take care of his wants, to lend him the money he requires for the legitimate needs of his business.

The County National Bank with invested capital of over \$1,200,000 and resources of more than Six Million Dollars, is large and strong enough to care for the needs of the business community.

Its officers and directors are interested in the advancement of this district. They are glad to offer to conservative business men, the advantage of an alliance with an old and capably managed bank.

Your account is invited.

SUNDAY SCHOOL LESSON
By REV. P. E. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.
(Copyright, 1919, by Western Newspaper Union.)

LESSON FOR JUNE 1.
FAITH, WHAT IT IS AND WHAT IT DOES.

LESSON TEXTS—Hebrews 11:1-40; 12:1
GOLDEN TEXT—Ye believe in God, believe also in me.—John 14:1.
ADDITIONAL MATERIAL—Matt. 5:8; Mark 7:24-25; Rom. 1:16-17; 2:21-26; 5:1; John 5:4.
PRIMARY TOPIC—Story of a Man Who Believed in Jesus (John 5:1-38).
JUNIOR TOPIC—Heroes of Faith.
INTERMEDIATE TOPIC—The Victory of Faith.
SENIOR AND ADULT TOPIC—The Place of Faith in Religious Life.

In Hebrews, chapters 1-10 the grounds of faith are clearly set forth. In this lesson its nature and glorious triumphs are displayed.

1. The Nature of Faith (11:1-3).
1. Faith is the eye of the soul, enabling it to see the invisible (v. 1). It is not merely intellectual assent to that which commends itself as being reasonable, but it is the soul's attitude toward God.
2. Faith seizes the things of the future and lives and walks in their power in the present (v. 1).
3. It enabled the "elders" to obtain a good report (v. 2). It made God's promises so living and real to them that it became the dominant force in their lives.
4. Faith enables us to understand how the worlds were made (v. 3). No man was present when God made the worlds, so the foundation for our knowledge is the Word of God. The one who has faith wholly believes that Word.

II. The Triumphant Victories of Faith (11:4-38).
1. Faith of the antediluvian saints (vv. 4-7). As representative of this period three men are pointed out: (a) Abel (v. 4), who displayed his faith in his worship. He took his place before God as a sinner and offered a bloody sacrifice, thereby showing that he looked forward to Christ's atonement, which is substitutionary—a life for a life. (b) Enoch, who displayed his faith in his walk in fellowship with God (v. 5). (c) Noah, who by faith stood loyal to God in a time of universal apostasy and wickedness (v. 7). Noah's task was a stupendous and difficult one. He executed it in the face of many a sneer and taunt, but his faith carried him through, securing salvation for himself and his family.

2. Faith of the Hebrew saints (vv. 8-38). (a) Abraham (vv. 8-10, 17-19). Abraham went out not knowing whither he went, but he knew that the Lord had spoken and that was enough. By faith he offered up Isaac, believing that God was able to raise him up from the dead and fulfill his promise that in Isaac the promised seed should obtain. (b) Sarah through faith received strength to conceive seed when she was old, counting him faithful who had promised (vv. 11, 12). (c) Jacob by faith pronounced a prophecy concerning Joseph's sons (v. 21). By faith he penetrated the unseen and pronounced destinies which should be experienced by them both. (d) Joseph by faith foresaw the entrance of his people into the promised land and made them swear to carry his bones there for burial, for even his body must not be left behind in the land of judgment and death (v. 22). (e) Moses (vv. 23-28). Faith in the hearts of his parents caused them to disregard the king's decree. Faith caused him to turn his back upon the honors of Egypt and identify himself with his enslaved brethren.

III. Faith's Grand Exemplar (12:1, 2).
Christ taking upon himself human nature and passing through the trials of life to a triumphant goal is the supreme example for us. Those who fix their eyes upon him will (1) lay aside every weight. To run with success all burdens must be cast off. Things which may not be sinful in themselves, if they impede our progress must be laid aside. (2) Lay aside the sin which doth so easily beset us. (3) Run with patience the race set before us. (4) Looking unto Jesus. Our eyes must be steadfastly fixed upon him. Having him as our example we will endure the cross. To follow Jesus means suffering and trials.

Love as a Word.
Love, even as a word only, must stand alone. It is one of the great monosyllables of our great language—Love. It is the invisible gravitation of life. With its invisible cords, viewless but potent, it draws hearts together over eternal spaces, and holds them together in an indissoluble bond in Time and Eternity.

The Wonder of It!
"Lord, when I look on my own life it seems thou hast fed me so carefully, so tenderly, that thou canst have attended to no one else. But, when I see how wonderfully thou hast led the world, and are leading it, I am amazed that thou hast had time to attend to such as I."—St. Augustine.

Why Man Falls.
Man could not fall so low were he not so great. It is the abused God in a man that turns him into a devil.

In England houses are being built of a new kind of concrete, made primarily from slag and seaweed.

JUNE BRIDE SUGGESTIONS

A HELPFUL SERVICE

The gift for the June bride must be in harmony with the occasion. To accomplish this selections must be made with care and without undue haste.

That is where this store's service once more comes to the fore. And to this store the bride-to-be should come—to this store those expecting to make gifts to the brides-to-be should come—every little detail of our selection will be given the best of attention and the prices are entirely a matter of your own selection—the range is wide.

LOST—Pocket box containing R.R. pass and Union card. Finder please return to Progress. m31-tf-ch.

One pound of photo-plates will supply heads for one million matches.

WOODLAND BRICK MAKER KILLED ON PENNSY RAILROAD

Charles Ballou a Hungarian, aged about 42 was run over and killed Thursday evening last by the passenger train on the Pennsylvania railroad which arrived in Clearfield at 6:45.

Ballou, who was employed at the Harbison-Walker brick works at Woodland was walking down the track toward Mineral Springs when the accident happened. Engineman Johnson saw the man ahead of him and after sounding his whistle several times expected him to get off the track as the train approached, as so often has happened in similar cases. When the engineman saw he was going to strike him he tried to stop his train but the momentum was too great and Ballou was knocked down and the train passed over him.

His badly mangled body was loaded onto the train and brought to Clearfield where it was taken in charge for burial by Undertaker Leavy.

Ballou had formerly been employed at No. 2 brickworks in Clearfield for more than ten years. He leaves a widow and family in the old country.

We have heard it said that the present passenger car relies in service on this branch of the Pennsylvania were really responsible for the wreck, the engineman failing to gauge the distance he could stop his train in and there not being crew sufficient to man the old handbrakes when the emergency arose. We do not know how true this assertion is, but judging by the appearance of these cars such a thing could happen.

HEALTH THRU RIGHT LIVING CHURCH THEME OF FEDERATION

The productive capacity of the world would be at least doubled if the health of the Non-Christian races could be brought up even to the level of the health of the Christian nations. That deduction, based on statistics of progress everywhere, is the underlying idea in a program for the study of life-conservation to be presented in a series of summer conferences at announced by the Inter-church World Movement of North America, Americanization of our foreign born citizens is the second great plank in the platform for the meetings.

Practically every organization of any magnitude connected with the missionary and welfare work of seventy-six Protestant denominations will be represented at the conferences, which are to be primarily training schools for leaders of the great Inter-church campaign. The series begins with the meeting at Blue Ridge, N. C., June 24 to July 3, followed by Silver Bay, N. Y., July 4 to 13; Estes Park Colo., July 11 to 20; Asilomar, Calif., July 15 to 24; Ocean Park, Me., July 18 to 27; Lake Geneva, Wis., July 25 to August 3; and Seabeck, Wash., July 30 to Aug. 8.

The Missionary Education movement has given up to the inter-church movement all the facilities for the missionary training conferences it has conducted in past summers, including the personnel of its field organization, to take effect tomorrow, June 1, and the Laymen's Missionary movement has taken similar action, according to word just given out by national officials to the two organizations. With these combined powers added to the representative forces of the larger project, there is an expanding and diversifying of the scope of the summer meeting, that leaves only a slight resemblance to those of other years. The seventy-six denominations in the scope of the Inter-church movement, with 200,000 separate churches and congregations totaling more than 50,000,000 people, are combining their resources for systematic effort to improve conditions of life in all parts of the world. By the introduction of Christianity, the modern interpretation as furthered by the Inter-church project means also introduction of the benefits of Christian methods of living in sanitation, child culture, working conditions, housing, clothing, scientific methods of production and manufacture and any other element conducive to prosperity, health and general usefulness in the world.

In the summer conferences the various phases of the Inter-church campaign will be presented by men in charge of the departments. There will be reports of progress made on the various subjects now being conducted in the home and foreign fields, on which the definite program of the movement is to be based. Volunteer will be called for to enlist in both the home and foreign service, a being estimated that more than 200,000 will be needed to supplement forces now at

SPECIFICATIONS

The Pilot Six Forty-Five Is The Result of Eleven Years of Scientific Engineering Principles Properly Applied

MOTOR—PILOT TEETOR—Six cylinders, 3 1/2 inch bore, 5 inch stroke. L-Head. Cast en-bloc. Top half crank case and cylinders integral. Valves enclosed. Cam, pump and generator shafts gear driven and enclosed in oil tight case. Helical gears used. S. A. E. horsepower 23.44, actual horsepower more than 45.

LUBRICATION—Splash system, reinforced by pump which forces oil direct to all main bearings. Oil gauge on motor base. Oil pump accessible.

COOLING—Centrifugal pump. Genuine cellular radiator. Pressed steel fan, belt driven.

TRANSMISSION—WARNER—Selective Sliding gear. Three speeds forward and reverse. Nickel steel gears and shafts enclosed in case with motor and clutch forming unit power plant.

CLUTCH—BORG & BECK MULTIPLE—Dry plate, eleven disc.

FRAME—Pressed steel, heat treated and hot riveted, with reserve strength to insure absolute efficiency and safety.

TORSION ROD—Triangle. Forward end fitted with double spring buffers and ball and socket joints.

FRONT AXLE—I-beam type, drop forged. Roller bearings.

REAR AXLE—Full floating type. Spiral bevel gears. Vanadium steel shafts. Drive shafts removable. Differential gears adjustable and easily removable. Roller bearings.

BRAKES—Internal expanding and external contracting.

SPRINGS—(Front) Half elliptic, 36 inches.

SPRINGS—(Rear) Cantilever, 52 inches.

CONTROL—Left side drive. Center control, ball and socket type. Gear shift and brake levers connected directly to transmission case.

STEERING GEAR—Irreversible worm and sector type. Fitted with polished walnut steering wheel. Provision for adjusting all parts subject to wear.

GASOLINE SYSTEM—Stewart vacuum feed. Gasoline tank in rear. Easy of access and properly located for correct distribution of weight.

CARBURETOR—Specially designed for Pilot Motor. Hot air jacketed.

IGNITION—Delco. Two Unit.

ELECTRIC LIGHTING—Delco.

STARTER—Delco.

BODIES—Five Pass. Touring; latest stream line cowl design. 5 pass. Roadster; four door full stream line effect. 4 pass. Coupe; automatic disappearing and adjustable glass all around. 5 pass. Sedan; automatically converted into open touring at will.

UPHOLSTERING—Deep, comfortable cushions. Genuine high grade leather.

COLOR AND FINISH—Standard finish; bodies wheels, frame and running gear finished in dark Brewster green. Fenders, hood and dust shields black. Lamps, black, nickel trimmed. Will furnish any other color desired at extra charge.

WIND SHIELD—Adjustable rain vision ventilating type. Modeled to conform to lines of cowl.

HORN—Electric motor driven horn mounted under hood. Horn button in top of steering column.

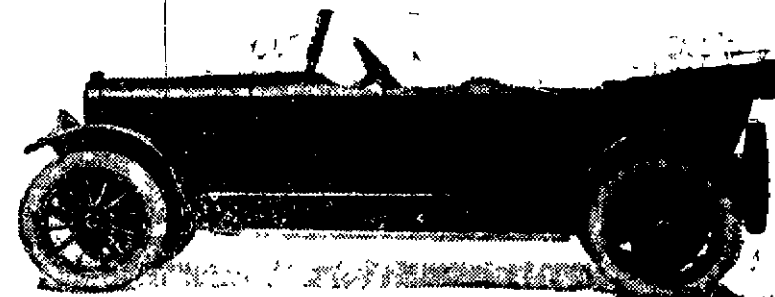

TOP—"One man" top with dust cover. Patent locking Bar top holders.

WHEELS—Artillery type—32x4 inches—fitted with demountable rims. One extra rim furnished.

TIRES—32x4.

WHEEL BASE—120 inches.

WEIGHT—2790 pounds.

Meat Injurious To The Kidneys

Take a Tablespoonful of Salts if Back Hurts or Bladder Bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative viscous clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night, when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grape- and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

STOMACH TORTURE GONE; FIRST SLEEP IN THREE MONTHS

Mr. Heinrichs Was Ready to
Give Up. Then He Found
How to Regain Health.

"The first sleep I had had in three months was on the second night after I began using Milk's Emulsion. I had a bad case of stomach trouble and constipation for years and was ready to give up. I was troubled with gas, dizziness, bloated after eating, growing sensation and cramps in the stomach. Milk's Emulsion was a God-send to me, and I want everyone to know about a medicine that will cure such ailments."—C. E. Heinrichs, 702 S. Alabama St. Indianapolis, Ind.

Mr. Heinrichs and thousands of other former sufferers from attacks of the stomach, indigestion and bowel troubles, have found that Milk's Emulsion gives prompt relief and real lasting benefit. Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and purgatives. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to run-down nervous people and it has produced amazing results in many cases of tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under the guarantee. Take six bottles home with you. Use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Stewart's Drug Co.

Shoe Talk Worth Heeding

Men's Smart Oxfords

There is a sense of great comfort in wearing a good pair of oxfords, but in knowing that the shoes are fashionably correct there is a sense of extreme satisfaction. Our oxfords combine both comfort and style, for they are built on sensible lasts that give free play to the foot without sacrificing the good looks of the shoe. Medium toes, low, broad heels and welted soles. For quality they compare favorably with shoes sold elsewhere at higher prices.

White Shoes Essential To Complete Summer Wardrobe

A woman's wardrobe is not complete without a pair or two of white shoes for they serve many purposes and add immensely to the charm of one's costume. White buckskin lace shoes with graceful Louis heels, and white sports shoes in high or Oxford styles are fashionable, and those women who prefer cloth to leather will have the choice of a number of styles in high lace models, with turned soles and Louis heels. We cannot lay too much stress on the smartness of white footwear for women.

Boys' Shoes The Kind That Will Stand All Kinds of Hard Knocks, and Give Long, Satisfying Service

For the growing boy, or the boy who wants to play and play hard, there is needed shoes that will stand the wear and tear, and yet come within the reach of reasonable bounds of cost. And shoes for such boys as these often give parents their greatest concern for a boy very often wears out one pair before he has a chance to get another. These shoes have been built for just such boys, the kind that play good and hard, and are strong and healthy. A good manly laced model, and comfortable fitting.

Ross & Woods THE HOME OF THE EDUCATOR SHOE

PAPER BULLETS HAD THE GERMANS GUESSING HARD

LONDON, May 30.—One result of the war has been to teach the world how to spin a fibre from paper, which for durability is only exceeded by that made from the best linen thread. The bulk of this new paper thread comes from Norway and Sweden. They call it "kraft," which means "strong," and the name is well deserved. Many thousands of tons of it are now being imported into England for use in the upholstery trades, and in the manufacture of carpets. An ordinary piece of webbing two inches wide made from this material is so strong that it is impossible to tear it. And as the rain doesn't hurt it, it has been found an excellent substitute for canvas in the making of tents. The strangest use to which the new fibre has been put, however, consists in making bullets with it. Millions of these paper bullets were fired at the Germans during the closing stages of the war, and months elapsed before the Hun found out, by cutting some of them open, that they were different from other bullets.

When they did discover that enclosed within their thin outer coverings of nickel was a substance, the properties of which they didn't understand, there was a great outcry. They promptly accused the Allies of using poisoned bullets, explosive bullets, and other similar contrivances, while as a matter of fact the mysterious substance was nothing but paper.

Says Hot Water Each Day Keeps The Doctor Away

Drink Glass of Hot Water Before
Breakfast to Wash Out the
Poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, be well. What a glorious condition to attain, and yet how very easy it is if one will only take the morning inside bath. For those who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy, by taking a glass of hot water before breakfast.

MITCHELL-FULLINGTON

Mr. M. S. Mitchell and Miss Nora Fullington, a popular Clearfield couple, slipped quietly down to the Cran parsonage at 7:30 this morning and had Rev. C. W. Baker say the words which made them man and wife.

That the step was in contemplation for some time was well known to the happy couple's host of friends, and arrangements had been agreed upon to make the occasion "some time" for the benefit of the newly weds, but this morning's coup fooled them all and following the ceremony the very limited bridal party repaired to the Pennsylvania station and boarding the 8:15 train were away on their honeymoon trip before their friends awoke to the fact there was something doing. The groom has long been a valued employee of the Clearfield Bituminous Coal Company here and is a fine young man. His bride is the eldest daughter of Mrs. E. M. Fullington. She is an accomplished young woman, possessed of all the graces necessary to make the perfect helpmeet. They will be at home on Weaver street after June 15th.

The Progress joins with their legion of friends in wishing Mr. and Mrs. Mitchell all the joys of a happy wedded life.

by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone whether ailing, sick or well, should each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the kidneys, stomach, liver and bowels, the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one splendid appetite for breakfast. While you are enjoying your breakfast, the water and phosphate are quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, stomach trouble, rheumatism, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Gossip for Tonight's Tea Table

Mrs. Bernard Simons is visiting her parents, Mr. and Mrs. Joseph Ross.

Misses Lillie Olson and Agnes Vaughn of Curwensville spent last evening with friends here.

Clark Kittleberger is transacting business in Pittsburgh.

FOOTBALL CARD SCHEDULED FOR PENN STATE FRESHMEN

State College, Pa. May 31.—The one year residence rule, barring freshmen from participation in 'varsity' sports, will again be operative at Penn State next fall. It has been suspended this year in all branches of athletics.

With the return to the former practice, teams will be organized and schedules arranged for Penn State's clubs next year. A four-game football card for the class of 1923 has been announced as follows:

October 25, Indiana Normal School at State College.
November 1, Bellfonte Academy at State College.
November 7, Univ. of Pittsburgh Fresh., at State College.
November 15, Cornell Fresh., at Ithaca.

G. W. LAWRENCE

Mrs. G. A. Stewart and children, Dick, Gretchen and Doris are visiting Mrs. Stewart's parents at Winburne.

LEONARDSON'S—THE QUALITY STORE

Store Editorial

THE ACID TEST

Supposing you decided on purchasing a certain item tomorrow.

How would you go about determining where the best value was offered?

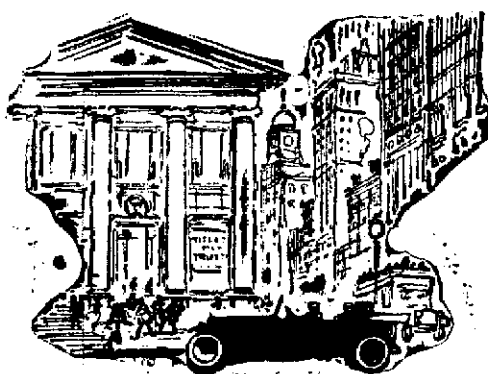

The test of comparing old purchases with the new one is out of date. Prices change almost daily.

But one test is always correct.

Go into every store, examine closely that item, and then come here.

We frankly tell you that that is the only way. We can safely give you such advice because we know that you will soon learn that direct comparisons are unnecessary—THAT THIS STORE'S VALUES ARE INVARIABLY BEST.

A. W. LEONARDSON CO.

Looks unusually powerful
—it is unusually powerful

The trim and clean-cut appearance of the Nash Perfected Valve-In-Head Motor is almost invariably commented upon by those who look under the hood of a Nash Six. And its performance is in keeping with its appearance. In owner service it has proved unusually powerful, economical and quiet.
